MS and NF lead the week with 11 Wins

MM Wins 3400th Career Win

Effective date: 2016-10-03

MS served KS a penthouse eviction notice. KS graciously welcomed MS into the top spot last week and MS turns around and picks 11 winners while KS picks a lonely 7 falling four games off the pace. The boys in research tell this reporter this is MS's first solo visit to the top spot since week one in the 2012 season. NF also picked 11 winners by way of a loner pick BUF over NE seemingly a crazy pick but NF seems to have polished up his crystal ball. Lots of 7,8, and nine game winners causing a log jam with six members tied at 38 wins. Congrats to MM who won his career 3400th game putting him eighth on the all time win list. Remember two things this week: First,there is a Thursday game. Second, get your dues in so we can balance the books. Yours in football, SS
