SR's 12 wins Leads Pack This Week

First Tie Game Since 2008

Effective date: 2012-11-13

SR's 12 wins is a fantastic finish for week 10 but still finds himself looking up at everyone else. TB still leads the group. DP and KS miss an opportunity to pick up ground but keep pace tied for second - out by four games while TB picks only eight winners this week. MS leads the group with 29 wins over the past three weeks and moves into fourth place. KB moves from 14th place to nineth place after his 11 wins.

Wisdom seems to leading the group as the top three spots are held by fathers with sons in lower positions. No substitute for experience!

Milestones to acknowledge include CM wins his 2,000 game and is the 10th all-time leading winner. KB wins his 1,000th game while BD notched her 900th win.
