Effective date: 2012-12-04

BD takes the weeks top honors with 11 wins and will need a miracle finish to compete for the championship but isn't that what the Christmas season is all about---miracles! KS in fine form picks 10 winners and seperates himself from MS. MS, DP and DR are log-jammed in second with 124 wins trailing KS by two games. JP is picking like a champ with a league best 42 wins over the last four weeks.
KB with nine wins this week is of particluar interest as one of those wins was his second loner pick of the year with his PIT over BALT pick. KB leads the group in loner picks this year.
Only 64 games left in the year. Check your stat sheet and get ready for a fantastic finish. Game on Thursday.
