Leader Posts A Three Game Lead

Effective date: 2013-10-14

BS with 12 wins gets back on track after lackluster performances in weeks 4 and 5. BS pushes his lead to three games with a resulting log jam in second place. BS has a remarkable turnaround from last year's results. BS is a +13 wins when compared to Week 6 2012 YTD. Tied for second with 60 wins are SS, KS, DR, and CM.

MS and JP pick 12 winners and make up ground on the lollygaggers in middle of the pack. MS will try to put back-to-back double digit wins next week for the first time this season. Good luck MS. Current Champ, LF seems to have righted his ship with his second consecutive 10+ win week. LF, JD, BD, KB, TB, CM, DP and JR all had 11 winners.

Things are heating up in Florida as BD (57 wins) and JD (56 wins) continue to fight it out for family dominance. SR was so close with his Loner attempt picking BAL over GB.

A report from the Treasury indicates almost a full pot. We need the final two members to pitch in and avoid a flogging.
