CM has Chance but Splits

Five Loners Result in Big Nada

Effective date: 2014-12-01

CM had an amazing opportunity to gain ground on BS with four GOO games but split the games to ultimately gain no ground for the week. BS continues his inspiring picking and lead the week with 11 wins. BS has back to back 11 win weeks and maintains the slimmest of margins over CM but did increase his lead over KS and JD. LF is trying to apply pressure on the defending champ but is incapable of making up any ground.

JR was our Thanksgiving Day winner with a 3-0 sweep in picks. A bright spot in another tough year. BD, a top-tier contender all year seems to be fading in the Florida heat looking forward to next year along with DP,DR,SS,JP,KB,JR,MS,SR,MM and TB. As we enter the stretch drive, the last four weeks of the season, it appears BS, CM,KS,JD and LF are in the hunt for this year's championship.

Sixty-four games remain until a new champion is crowned. If BS maintains his .684 season to date winning percentage he will go 44-20 for the remainder of the season. That means CM will need to go 46-18, KS 47-17 and JD and LF must post a 48-16 record to move ahead of BS.

Good Luck – Happy Picking

Yours in Football,

SS
